PROFESSIONAL SUMMARY

AI/ML Engineer and Full-Stack Developer with hands-on experience in machine learning, data engineering, backend development, database design, and business development. Founder of multiple technology and marketing ventures with experience managing digital campaigns across Assam.

Skilled in developing scalable web platforms, designing databases, collecting and processing large-scale datasets, and building AI-driven solutions. Passionate about solving real-world problems through technology, particularly in transportation, tourism, data intelligence, and automation.

Strong professional network across educational institutions, media organizations, tourism businesses, and digital communities throughout Assam and Northeast India.

EDUCATION

9-Month On-Campus Training Program in AI & Machine Learning | Indian Institute of Technology (IIT) Guwahati 2025 – 2026

Machine Learning, Deep Learning, Computer Vision, Data Engineering, Python Development, AI Project Development

Bachelor of Science (B.Sc.) in Mathematics | Jawaharlal Nehru College, Boko 2022 – 2025

Higher Secondary (Science) | Jawaharlal Nehru College, Boko 2019 – 2021

ADDITIONAL CERTIFICATION

Data Science Foundation Program | 1-Year Certification

Data Analysis, Statistics, Python, Machine Learning Fundamentals, Data Visualization, Database Concepts

PROFESSIONAL EXPERIENCE

AI/ML Project Assistant | IIT Guwahati 2026

Worked with Professor Gourav Trivedi (Professor, EEE Department) on an AI research project for approximately two months.

- Data preparation and dataset processing
- AI model support and research assistance
- Backend development support and data organization

Founder & CEO | AponGhar.in 2026 – Present

Founded a property booking platform connecting travelers with hotels, homestays, hostels, villas, and resorts.

- Owned end-to-end product architecture, backend, and frontend development
- Designed the database, authentication system, and property management system
- Built the booking workflow and owner dashboard
- Managed deployment and cloud infrastructure
- Stack: Node.js, Express.js, PostgreSQL, MySQL, JavaScript, HTML, CSS, REST APIs

Founder | MediaHouseAssam 2022 – Present

Established a digital marketing and media promotion agency serving organizations across Assam.

- Built a network of 80+ news media platforms across Assam
- Developed partnerships with multiple influencers
- Executed digital campaigns for hospitals, educational institutions, local businesses, and startups
- Managed branding, media outreach, and promotional campaigns

Freelance Social Media Marketing Specialist | Self-Employed

2022 – Present

Worked with businesses across hospitals, schools, educational institutes, tourism, hospitality, and small businesses.

- Developed social media strategy, brand awareness, and audience growth plans
- Led campaign execution, content planning, and digital promotion

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

AI & Machine Learning: Machine Learning, Deep Learning, Computer Vision, Data Analysis, Data Processing

Web Development: HTML5, CSS3, JavaScript, Node.js, Express.js, REST API Development

Databases: PostgreSQL, MySQL

Cloud & Deployment: Git, GitHub, Linux, AWS, Render, Railway

Data Engineering: Dataset Collection, Data Cleaning, Data Processing, Data Structuring, Database Design

MAJOR PROJECTS

AponGhar.in | Property Booking Platform — Northeast India

Hotel, homestay, and villa booking with owner dashboard, booking management, authentication, property listing, payment integration, and full database management.

Indian Railway Data Intelligence Project | Personal Research Project

Full database access covering the entire Indian Railway network. Features complete timetables, routes, train categories, platform layouts, and schedules structured for AI routing optimizations.

Hospitality Intelligence Dataset | Personal Research Project

A comprehensive nationwide property database focusing on hotels, homestays, hostels, resorts, and villas across Northeast India. Structured for geotagging and pricing recommendations.

CORE COMPETENCIES

Artificial Intelligence • Machine Learning • Full-Stack Development • Database Architecture • Data Engineering • Digital Marketing • Business Development • Product Development • Research Support • API Design • Cloud Deployment • Team Leadership

LEADERSHIP & ENTREPRENEURSHIP

- Founder of AponGhar.in and MediaHouseAssam
- Built a media network spanning 80+ news platforms
- Established professional relationships with influencers, educational institutions, tourism businesses, and local enterprises across Assam
- Experienced in launching technology products from concept to deployment

ACHIEVEMENTS

- Founded two startups before the age of 25
- Built a large-scale structured dataset covering Indian Railways
- Developed an extensive hospitality database for India
- Successfully executed marketing campaigns for numerous organizations across Assam
- Worked on an AI project at IIT Guwahati
- Developed complete full-stack web applications independently
